RE: The attached mailing from Prime Minister's Office

Comrade:

On May 14, 1980, Barbara Lee called to say she had received a piece of anti-PRG propaganda stamped from the Prime Minister's Office, post-marked in Grenada. We collected it May 15, and it is herewith attached.

Some obvious questions are:-

What concerns us is: How is it possible for such vicious anti-government propaganda to be mailed and stamped from the Prime Minister's Office to a friendly Congressional Office?

Who ?
How ?

Barbara says that all those U.S. persons who went to Grenada for The First Anniversary have been receiving G.I.S. News Releases regularly. Should this be so? To her knowledge, no one else except she has received this particular piece of anti-PRG material.

Please advise us at an early time if this was a known or unknown error; if a conspiracy and/or sabotage, and how to handle it.

Neither, 'Shampoo' Norbert Douglas our Security Officer at the Mission here, nor I have a clue on this. Only speculations:

1. Stanley Cyrus?
2. A spy inside the Ministry?
3. Is Roberta Salper involved?

Could be friendly*
(see materials on her attached).

Please advise.
